

NEW

V-M18 – V-M18B EZ-GO Area Proximity Keyless Entry + Alarm Version

- **LOCK AND UNLOCK WITHOUT LIFTING A FINGER !**
- **NO BUTTONS TO PRESS**
- **NO KEYS IN DOORS**
- **DO NOTHING - JUST WALK TOWARDS OR AWAY FROM YOUR VEHICLE**

There are 2 versions:-

The **V-M18** offers hands-free control of your vehicles locking and unlocking. It can also be used for other hands free operations such as automatic door opening in hospitals, factories, entrances etc.

The **V-M18B** also includes an engine immobiliser and alarm functions with its siren and impact sensor.

The system will automatically lock all the doors when you walk away from your vehicle when your handset is out of reception range - typically 2~4 metres.

The M18B version will also arm its built-in alarm and immobilise the engine

When you walk back towards your vehicle - come into the reception range - the doors will automatically unlock and the B versions alarm will disarm – however, the engine remains immobilised until you are ready to start the engine. It will not start if the handset is not present.

FEATURES - both models

- 2 x EZ-GO area proximity transponder/remotes
- Dash board warning LED
- Separate EZ-GO on-glass antenna
- Manual override
- Indicator confirmation
- On board central locking relays
- Anti hi-jack - Car finder
- Boot release output
- EZ-GO bypass function

V-M18B – alarm/immobiliser version

- Compact size MSB60 siren
- Chirp confirmation of arming
- Bonnet, boot and door protection
- V-MES20 impact sensor
- Engine immobiliser relay

The M18 offers hands-free control of your vehicles locking and unlocking. It can also be used for other automatic hands free operations such as automatic door opening in hospitals, factories, entrances etc.

The M18 models are not Star rated, so combine the M18 with a MAP80 'upgrade' to give a 'hands-free' full specification 4 or 5 Star rated security system, or with an M25 triple immobiliser for a 3 Star system.
